

SPECIFICATION

Concrete on a Roll & Slate sheet veneer

KEY CRITERIA

Width for Concrete on a Roll: 1000mm [Travertine 950mm]

Widths for Slate Sheet Veneer : 1220/610mm

Lengths for Concrete on a Roll: 3000mm [Travertine 2950mm]

Length for Slate Sheet Veneer : 2440/1220mm

Thickness in mm: 2

Colours: any

Backing: glass fibre

Flammability: A2

Haptics: Roughness Similar to Concrete

Smoke emission: S1

Adhesive recommendation for inside: Earth Anatomy glue supplied for application

Permeable: Yes

Flaming droplets: d0

Solvents: None

Quality of the substrate: Q4

Abrasion Resistance ISO 10545-6, **Chemical Resistance** ISO 10545-13,

Frost Resistance ISO 10545-12

For use in shower enclosures: refer to customer services

All materials CE approved
